PROJECTS

AI AGENT: WHATSAPP RESTAURANT ORDER SYSTEM

Built a WhatsApp based AI order management system for restaurants that automatically receives customer orders, logs them into Google Sheets, manages a one time 4 minute order edit window, and notifies kitchen staff after confirmation.

Tools Used: n8n, WhatsApp, Google Sheets, Gemini, Gmail, Telegram

Key Features:

- Automated order logging order management
- Timed edit workflow
- Kitchen notification automation
- Customer communication automation

AUTOMATED CLIENT ONBOARDING & PROJECT SETUP SYSTEM

Built an onboarding automation for a consulting firm that captures client intake via Google Forms, updates a relational CRM in Airtable, creates an Asana project from a template, sets up a Google Drive workspace, sends a personalized welcome email, and notifies the team in Slack.

Tools Used: n8n, Google Forms, Airtable, Asana, Google Drive, Gmail, Slack

Key Features:

- CRM record creation and Asana project setup from template
- Structured Google Drive folder, plus personalized welcome email
- Internal Slack notifications
